Teacher Contact Tracker

Who to reach, how to reach them, and what was said — no more digging through email.

HOW TO USE THIS SHEET

Fill one row per adult worth knowing: homeroom teacher, specials teachers, bus driver, school nurse, counselor, front office. Keep this sheet in the front of your home-school binder (see the backpack map, sheet 3). When you call or email, note the date and a one-line summary in "Last contact" — two words is enough. If a conversation ever needs a follow-up, you will be glad you wrote it down.

Tip: teachers are humans with 25 kids and an inbox. Lead with something kind, keep it short, and you will usually get a faster, friendlier reply.
